# About NES 2024

## Welcome

The National Education Show including the National ALN/SEND Show 2024 will be our ninth show and this year will be even bigger.

The day will be held at the **Utilita Arena** which is the largest venue in Cardiff!

The National Education Show on Friday 4th October is all about celebrating education and teaching by bringing together thousands of educational professionals to network, experience the exciting exhibition and participate in a variety of CPD seminars.

The day will be full of innovative ideas and solutions, as well as engaging CPD accredited seminars which are bursting with practical strategies and ideas to inspire and empower staff, children and young people. Additionally, we also have multiple seminars available in Welsh. We can't wait to share this fantastic day with you all.

# Championing choice for Welsh schools

At Compass Education, we understand that schools are the heart of any community, and finding the right Management Information System (MIS) as a technology partner is crucial. But it's not just about the tech – it's about the people behind it. Claire and the team at Compass are not just experts in technology solutions, they're dedicated individuals driven by a shared mission: to empower schools and communities through innovative technology.

**Claire Wensley** is Head of Sales, at Compass UK and Ireland. Claire is a beacon of passion and dedication in the realm of education technology! As a parent herself, she understands the profound impact technology can have on shaping young minds.

## Connecting with Wales

Claire's deep ties to Wales fuel her personal and professional mission to revolutionise education technology in her homeland. Having witnessed firsthand the challenges facing Welsh schools, Claire is determined to bridge the gap between outdated systems and modern solutions.

From her base in the Vale of Glamorgan, Claire champions the integration of technology into education, advocating for a future where schools reclaim control and parents are more engaged than ever.

## Leading the Charge for Change

Compass is not just a provider of MIS – we're pioneers of progress. With over 15 years of experience globally, we're well-versed in tailoring solutions to meet the unique needs of schools in Wales and beyond.

We're collaborating with schools in Wales to develop our solution to not only meet compliance requirements, such as statutory data returns, additional learning needs and assessment, but also to nurture and protect the Welsh language by offering a bilingual system.

## Embracing Diversity and Choice

We believe that every school deserves the freedom to choose the technology that best suits their needs. That's why we're collaborating with local authorities across Wales to develop bespoke solutions that empower educators, enrich student experiences and promote overall wellbeing.

Whether it's streamlining administrative processes or enhancing parental engagement, Compass is here to support schools every step of the way.

## Join Us on the Journey

As we embark on this journey towards a brighter future for Welsh education, Claire and the team at Compass invite you to join us.

From local authorities to individual schools, we're committed to building lasting partnerships that empower communities and transform lives. Keep an eye out for Claire and her 'goodie bags' as she travels across Wales, spreading the message of innovation and collaboration.

**Discover how powerful your choice of MIS can be. With Compass MIS by your side, the possibilities are endless. Together, we can create a brighter future for the children of Wales.**

Uncover the latest insights about student wellbeing in our thought-provoking report '*Disturbing currents: Wellbeing and mental health of children in Wales*'.

## What is an enquiry?

In Jigsaw RE, an enquiry is a unit of work, consisting of 6 lesson plans, based on a Big Enquiry Question e.g. What is good about Good Friday for Christians?

The lesson structure in Jigsaw RE mirrors that in Jigsaw PSE, both based on sound psychology of how learning happens and considering recent pedagogical developments.

Each lesson, in the format of an easy-to-use slideshow with teacher notes, has all the resources needed to deliver it, plus assessment activity sheets, descriptors and exemplification.
